

Toys- Entry point

- The Magic toymaker visited our classroom. He had scattered feathers everywhere, left us some unusual toys, a magic mail box, a think tank, an ideas machine and a question and answer board! In the middle of our classroom were four wrapped up presents, we were very excited as we thought the toymaker had brought us some presents!
- When we opened them they were full of old boxes, paper, bottle tops etc. The toymaker has left us a challenge to use our minds and to make our own toys with all the contents in the boxes!
- We worked very hard and using our co-operation, adaptability, communication and resilience personal learning goals we made some super toys for the toy workshop.
- Great fun was had by all!

Reading the letter from the magic toymaker and unwrapping the boxes!

What's in the boxes?!

Thinking hard , what shall we make?

Busy making our toys, using lots of our personal learning goals.

Can you see what we have made?

What do you think we made?
Ask us and see if you were right

Can you guess what toy this is ?

Look at our super toys!
Did you guess what they were?
